Friends, this is Brad (16 months) learning the business early. His mother Betty and Grace whom you met last year are still intent on seeing that your cuttings are carefully wrapped and packed to reach you in the very best condition.

Potted plants of many varieties not listed here are available at our greenhouses. Visitors are always welcome.

### **ROOTED CUTTINGS**

Rooted cuttings when possible will be clumps of small plants ready to break apart and pot up. However, in some cases, due to heavy sales of very new varieties it may be necessary to ship less advanced cuttings: also when temporarily out of a certain variety it may be necessary to substitute a similar variety or return your money as directed.

### **ZONOLITE (vermiculite)**

Cutting's on arrival should be set in zonolite. Wet zonolite thoroughly with  $\frac{1}{2}$  strength solution of soluble fertilizer recommended for violets. Water with plain water thereafter. Remove plantlets when the leaves are about the size of a quarter.

### **SHIPPING**

Rooted cuttings will be shipped only during warm weather from the last of April until the first of November.

### **MINIMUM ORDER**

Minimum order is \$5.00 plus \$1.00 extra for postage, packaging and Special Delivery, which gets your plants to you quicker and safer. If you do not want them sent Special Delivery please omit 50c.

### **NOTICE**

We increase the size of the clumps of rooted cuttings on orders over \$10.00.
